

Oregon Bike Shop List

Business Name	Website	Current Status	Location
7 Corners Cycles	http://www.7corners.com/	3/25: We are no longer allowing people inside the shop. We have our side garage door open with fencing across it and are talking to people through that opening. Going out into the parking lot if necessary.	Portland, OR (SE)
Allegro Cyclery	https://www.allegrocyclery.com/	3/23: Operating with our usual hours. M-F 9-6 / Sat. 8-5 / closed Sunday. We instituted free pick up and delivery for standard tuneup or service of equal value. Any smaller service will have a small fee for pick-up and delivery. This applies within the city limits. We have encouraged people to call ahead in regards to sales or service. Customers are asked to wait at entrances until we can offer assistance. If they do come in hand sanitizer is required and we ask they do not handle merchandise. Basically we are trying to keep our customer flow to those with a mission, someone that simply wants look around is discouraged. (that goes against everything business but business models are changing daily) 3/25: I have two weekly shop rides and Kathryn leads one women's only group. This week we curtailed both groups. Instead of the group rides on Tue. and Thur. I will still be posting the route but with a twist. Riders can complete the ride on their own and post their Strava on social media and receive "points" that will translate into shop credit. Hopefully this will encourage people to stay connected. 3/25: By appointment only. Folks can email: info@abrahamfixesbikes.com to schedule.	Walla Walla, WA

Bike Newport	https://www.facebook.com/Bike-Newport-95071512891/	3/25: Our special hours are as follows: Mon - Fri: 9 am - 4 pm and Weekends: 11 am - 4 pm. Although we aren't allowing folks to browse in the shop as a precaution to ensure their health and ours, we continue to take in repairs, consult on upgrades and bike builds, and coordinate fit appointments for the future. We've incorporated curbside service into our business model and as a Salsa dealer, we can have bikes delivered directly to customers as needed. Disinfectant is our middle name—all touch points are routinely disinfected, all repairs are completed with gloves, payments are coordinated by phone or if in person, cards are disinfected along the way. Any interaction is conducted with 6' of distance. We've continued to provide updates on social media just to reach out to our community (we miss our peeps). We plan to continue serving our community for as long as it makes sense, as we recognize that the bike is either a sole transportation source or a sanity resource—or perhaps, both. All that being said, we don't want folks to put themselves or us in jeopardy. Health and safety first, please, so that we can all enjoy riding in the near and long-term future.	Salem, OR
